Caspian Sea Monster - Wikipedia The Caspian Sea Monster, officially *«KM»* (Korabl Maket, Russian - *Корабль-макет*, Experimental Craft),[1] also known as the "Kaspian Monster", was an experimental ground effect vehicle (or ekranoplan)â€”a craft that flies, but stays close to the surface so it can rely on the ground effect. In search of the Caspian Sea Monster â€œ The Register The Russians had a rather more prosaic name for the Caspian Sea Monster: the KM or "korabl-maket". This "ship-prototype" was the first in a series of Soviet "ekranoplan" ("screen plane") developments and was designed by Rostislav Evgenievich Alexeev of the Central Hydrofoil Design Bureau. Caspian Sea Monster Ekranoplan Flight Video These craft were originally developed by the Soviet Union as very high-speed military transports, and were based mostly on the shores of the Caspian Sea.

What was the Caspian Sea Monster? A look at one ... - mirror The Caspian Sea Monster was a boat and a plane, all rolled into one - but its mysterious design plagued the US Intelligence services for years. The Caspian Sea Monster Alexeyev wanted a really high speed boat, so why not add short wings to lift it clear of the surface and eliminate water drag entirely. His first ekranoplan design. The Caspian Monster (Jon Hunt #2) by Larry Jeram-Croft The Caspian Monster has 101 ratings and 1 review. reginald shaw said: A modern day Biggles.This is the first book by this author I've read and to use.

The Caspian Sea Monster - curious-droid.com The Ekranoplan, AKA the Caspian Sea Monster was one of the most unusual military vehicles to come out of the cold war but what happened to this half plane, half boat. This "Caspian Sea Monster" Was a Giant Soviet Spruce Goose The MD-160, dubbed the "Caspian Sea Monster" by US Intelligence services, was indeed one of a kind. This massive 550-ton seaplane measured 240 feet long and 63 feet. BBC NEWS | UK | Magazine | Riding the Caspian Sea Monster The object was soon dubbed the Caspian Sea Monster. What they were looking at was, in fact, an Ekranoplan; a wing in ground effect or WIG craft designed to fly at very high speed a few metres over the top of the sea. It sounds not unlike a hovercraft.
